

Games people play!

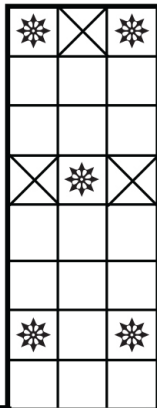

NOT JUST A RELIC OF THE PAST,
BOARD GAMES CONTINUE TO ENTERTAIN AND TEACH!

Play Fair, Win Big!

The roll of dice, the pause before a move, the stab of disappointment at a counter move, the thrill of a win and the frustration of a loss - no wonder the puritans frowned on such games and viewed the dice as an instrument of the devil.

Board games may date back to prehistoric times but they evoke all sorts of childhood nostalgia of the days gone by!

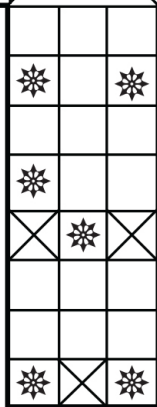

Board games are life, learning and laughter packaged in a little box. Whether the game is one of chance or strategy, life lessons and social skills come into play with the throw of the dice.

Board games provide a reality check as they mimic real life while offering an opportunity to think, react, adapt and compete while we use strategies to court lady luck.

The earliest recorded board games date back to 3500 BC in Egypt where evidence of their presence is seen in tombs and palaces proving their value as diplomatic gifts and artefacts for the afterlife.

While most board games are based on the rules of society, they often challenge the status quo as they echo and reflect upon the socio-economic milieu of their times.

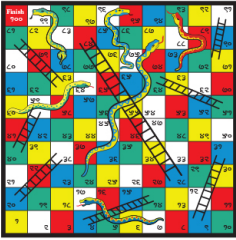

As you turn the pages of this unique calendar, you will unravel a treasure trove of board games that will undoubtedly prove to be an antidote to these stressful times even as they bring back the spirit of togetherness.

The real magic of these games is in their ability to engage, entertain and exercise the gray cells.

Let the games begin!
